ANNE TAKES A TRIP
(continued from page one)

I spent a very pleasant afternoon and evening going through the very beautiful Butchart Gardens. Twenty five acres of flowers, lawns, fountains sunken gardens, Chinese Gardens, Italian Gardens and more flowers than I have seen at one time in my life. Words cannot describe their beauity and for once in my life even I was speechless. At night the whole place is bathed in Flood Lights giving an entirely different light on the subject To me it was breathtakingly lovely.

I felt like I was in fairy land when I saw the Capital Buildings and the Empress Hotel all lit up by actually a million light bulbs. Reflected in the ocean it was like something from The Arabian Nights.

I had my first trip on the ocean, saw four big, black Porpus, weighing 300 or 400 pounds-and thats a lot of fish.

There was a Salmon Derby on Sunday and I enjoyed my first fresh salmon. Its better than in cans—for sure.

Wes took us for a tour of the big ships, which proved most interesting.

Yes it is truly Victoria the Beautiful

Anne.

P. S. —I do hope the C. C. of Victoria provide me with a suite in the Empress (for free of course) to retire in.

What a wonderfull idea!

Marvelube
GREASE "0" and "1"

Marvelube is a tacky, gun grease, formulated to cling to metal surfaces. It's soft enough to be forced through closely fitted machinery parts yet it has enough body for full protection.

Marvelube grease is the accepted standard of high quality among Western farmers. Regular servicing with Marvelube Grease "0" when it's cold —Marvelube Grease "1" when it's hot, cuts wear to minimum—prolongs farm equipment life.

"I'd like to say this to all Canadians..."

UNDER a Liberal government, Canadians have added every year to the national strength and national unity of Canada;

We have had the greatest expansion of social welfare in our history;

We have increased our employment, our production and our national income every year;

We have had the greatest expansion of our primary and secondary industries — truly an industrial revolution;

Because of the outstanding contribution of the members of our Navy, Army and Air Force, we have been able to do our full share to prevent and to stop Communist aggression;

We have reduced the national debt every year, and, in the last two years, reaped the reward in lower tax rates.

Do we want all that to be continued?

Do you really think it's time for a change?

For a change to a Parliament of regional groups — a handful of Social Crediters from the Far West, a few Socialists from the Prairies, a few more Conservatives from Ontario or the Maritimes and some so-called Independents from Quebec?

In such a Parliament without the leadership and responsibility of a united national party, how could the government help being weak and insecure?

Do we want a weak and divided government to deal with the formidable problems of the next few years? I ask you, IS it really time for a change?

We believe most Canadians want a government which encourages enterprise, promotes trade and fosters the exploration and development of our resources; and you know it as well as we do, that requires balanced budgets, paying off debts in prosperous times and a tax structure which, while fair to all, is adequate to meet these demands.
